

Everything teams need to do their best work, from anywhere

Google Workspace seamlessly integrates all of the core elements of work, like email, chat, voice and video calling, document collaboration, storage, task management, and admin and security tools so your users can communicate and collaborate easily and securely, from wherever they are.

How Google Workspace is different

Simple

Apps chosen by billions of users — not mandated by IT

Real-time collaboration helps teams work in parallel and move faster

Intuitive, reliable mobile apps make it easy to pick up where you left off and get work done on any device

Closely integrated apps lead to better alignment

Helpful

Industry-leading AI lets you focus on high-value work

Smart writing suggestions help users create quality content, quicker

AI-powered data tools promote data-driven decision making

Intelligent meeting capabilities make it easier to collaborate across languages and regions

Flexible

A workspace that scales with your organization

Built-in engagement tools enable organizations to exchange ideas and gather feedback

Google Workspace integrates with the other business applications you already use so you can work across platforms

Secure

Secure, cloud-based controls are easy to manage

Intelligent security insights help you reduce risk

Proactive protections help keep users secure

Simple controls enable centralized manageability

More than 6M businesses have chosen Google Workspace
